

## Staff Report

---

**Report To:** Operations Committee  
**Report From:** Matt Prentice, Manager of Public Works  
**Meeting Date:** July 20, 2023  
**Report Code:** OP-23-029  
**Subject:** Drinking Water Quality Management System Commitment and Endorsement

---

### **Recommendations:**

THAT in consideration of Staff Report OP-23-029 respecting the Drinking Water Quality Management System (DWQMS) Commitment and Endorsement, the Operations Committee recommends that City Council authorize the Mayor, City Manager, and Director of Public Works and Engineering to sign the Commitment and Endorsement section (Element 3) of the Operational Plan.

### **Highlights:**

- In accordance with Provincial Regulations, the City of Owen Sound Drinking Water System has an audited Operational Plan (attached) prepared to the Ontario Drinking Water Quality Management Standard requirements.
- The purpose of this report is to seek Top Management and Owner (Council) commitment and endorsement of the Operational Plan, which is a requirement of Element 3 of the Drinking Water Standard.

### **Strategic Plan Alignment:**

This report supports the delivery of Core Service.

## **Climate and Environmental Implications:**

This supports the objectives of the City's Corporate Climate Change Adaptation Plan by strengthening the resiliency of City infrastructure or services.

## **Previous Report/Authority:**

Not Applicable

## **Background:**

The Operational Plan for the Drinking Water Quality Management System (DWQMS) was first prepared in early 2009 to meet the Safe Drinking Water Act requirements for licensing Water Systems and Operating Authorities.

With every change in Council and Top Management, it is necessary to refresh the Commitment and Endorsement requirement to ensure the current individuals responsible for the system endorse the commitment.

Please note that the City's DWQMS Representative is the Public Works Manager.

## **Analysis:**

In 2022 and early 2023, the need to regularly renew the Commitment and Endorsement was identified during the internal and external audit process and the Management Review. This report follows the Standard of Care training provided to Council by the Walkerton Clean Water Centre in April 2023, which provided information regarding the drinking water regulatory framework and other relevant information.

## **Financial Implications:**

The DWQMS is an annually budgeted activity. Costs primarily relate to the cost of the auditing process.

## **Communication Strategy:**

Following the Commitment and Endorsement, the required documentation will be incorporated into the Operational Plan before the 2023/24 internal/external audit cycle.

## **Consultation:**

This report was prepared in consultation with the Director of Public Works and Engineering.

## **Attachments:**

Operational Plan with System Level Documents - June 2023

## **Recommended by:**

Matt Prentice, Manager of Public Works

Lara Widdifield, Director of Public Works and Engineering

## **Submission approved by:**

Tim Simmonds, City Manager
