- Referenced FAQs

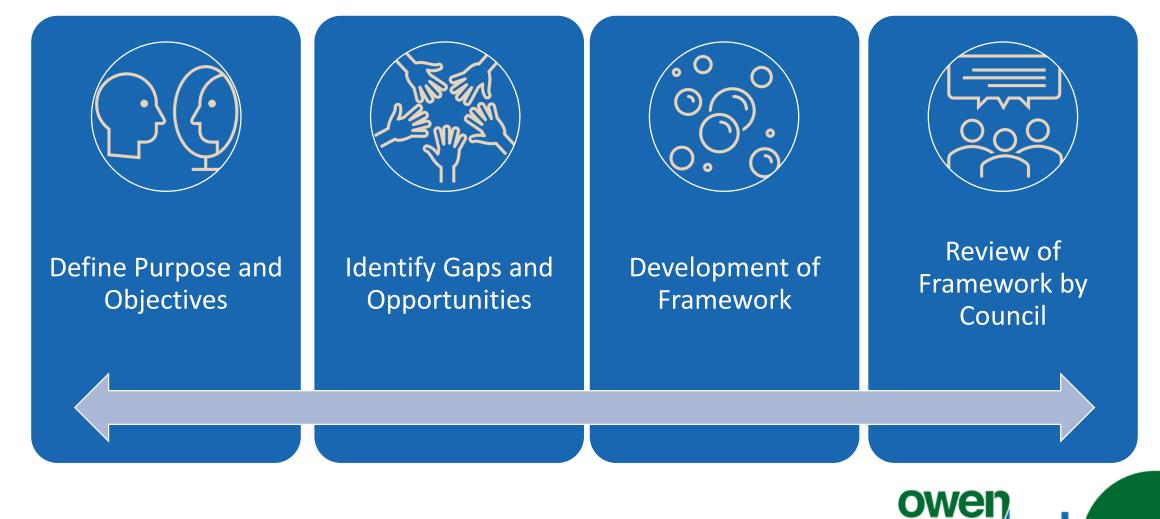

Visited project pages

### Phase 2 - Development of a Community Engagement Framework

7

### Why have a Community Engagement Policy?

- 1. Identify clear, consistent guidelines for staff, Council and the public to facilitate a coordinated approach to community engagement
- 2. Consistently inform the community about the City's approach to consultation and engagement activities so that citizens know what to expect
- 3. Facilitate Council decision-making that is open, transparent, responsive and accountable **OWE**

### Listening and Learning

Discussions with Staff to Understand the Barriers they Face with Engagement Community Survey and Community Group Discussion on the Challenges and Opportunities

Research into Best Practice

### What We Heard

Community

- Provide more time and options for citizens to provide feedback, including having public meetings at convenient times
- Ensure citizens are included and represented
- Explain the purpose of asking public input and how it will be used
- Make information easy to find and understand
- Notify the public about the final decision and how their input was used

Staff

- Provide more training, support, resources and expertise to staff delivering engagement activities
- Ensure appropriate staff and financial resourcing is in place for engagement activities

### What We Learned

- Resources available through the International Association for Public Participation (staff are now members)
- Municipalities which have "best in class" engagement practices
- Lessons learned from small municipalities with engagement policies and practices

### Moving Forward
